

SAMPLING VALVE

stainless steel

...from

elomat®

- For simple and professional sampling
- Low metalal seal surface avoids bacteria and guarantees a high flow during sampling

- Singeble till 200°C
- Needle valve technology allows fine adjustment of the flowerate

order number PROHA1

Spedification:

material body:	1.4408 stainless steel
material bonnet:	1.4301 stainless steel
material spindle:	1.4408 stainless steel
material spindle seal:	PTFE
material lever:	1.4301 stainless steel
nominal diameter:	DN 15
thread size:	G 1/2
connection fittings:	G 1/2"
nominal pressure:	PN 200
